ABSTRACT

The International Conference on Postgraduate Research 2014 (ICPR2014) offers researchers not only postgraduate students but also researchers who are interested to present papers on the system, curriculum and management of postgraduate school. This conference basically focuses on the area of postgraduate development and social sciences realizing the demand on this field and to explore the global issues. The researchers will be able to get feedback on their own work. It also enhances academic exchanges among researchers and also among students all over the world. The research activities of researchers and postgraduate students are geared towards achieving excellence in research and development. It is essential to provide a platform for the researchers and postgraduate students to present, question and exchange knowledge in the field of postgraduate research and social sciences.

Keywords: *Postgraduate, researchers, social sciences.*

1. Introduction/Background

The objectives of the conference is to provide a platform for the researchers and students to seek further opinions, comments and suggestions towards the improvement of the conducted research, to contribute knowledge in the field of postgraduate research and social sciences and to provide wider opportunities to academicians and post graduate students to interact and create networking.

2. Literature Review

The International Conference on Postgraduate Research 2014 (ICPR2014) offers researchers not only postgraduate students but also researchers who are interested to present papers on the system, curriculum and management of postgraduate school. This conference basically focuses on the area of postgraduate development and social sciences realizing the demand on this field and to explore the global issues. (Author, 2014)

3. Methodology, Findings, Analysis and Discussion

3.1 Methodology

The researchers will be able to get feedback on their own work. It also enhances academic exchanges among researchers and also among students all over the world. The research

activities of researchers and postgraduate students are geared towards achieving excellence in research and development.

Figure 1: Theoretical Framework

3.2 Findings and Analysis

It is essential to provide a platform for the researchers and postgraduate students to present, question and exchange knowledge in the field of postgraduate research and social sciences.

Example of Table

Table 1: Level of Urbanisation by State, Malaysia

Rank	State	Level of Urbanisation (%)
1	Kuala Lumpur	100
2	Selangor	91.4
3	Penang	90.8
4	Melaka	86.5
5	Johor	71.9
6	Perak	69.7
7	N. Sembilan	66.5
8	Kedah	64.6
9	Terengganu	59.1
10	Sabah	54.0
11	Sarawak	53.8
12	Pahang	50.5
13	Kelantan	42.4
